

AlliedConcrete

READY Colour

Bringing concrete
to life.

Attractive and hard-wearing

Ready Colour is designed for beauty and durability indoors and out. Cost-effective and flexible it provides a high-quality look and a practical alternative to paving, asphalt, marble and timber.

Dark shades add drama and contrast, while lighter shades lift interiors and work well with other colours to create a warm, comfortable living environment.

Where to use it

Ready Colour gives you complete design flexibility and creates the ability to design something absolutely unique for your space and with only a little maintenance it will last for generations.

- Patios
- Pool surrounds
- Driveways
- Paths
- Internal floors

Benefits

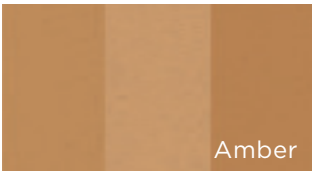

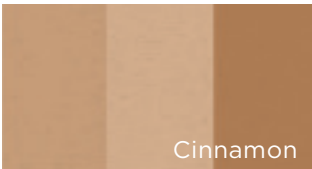

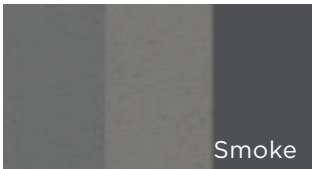

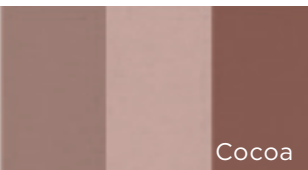

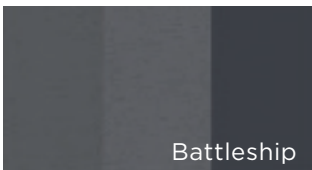

- Available in a select range of contemporary colours that will complement your surrounding environment
- An attractive, hard-wearing and cost effective alternative to asphalt, tiles and timber
- Low maintenance, does not rot or rust, and is durable
- Provides thermal comfort (as part of a passive solar design)

Stunning
coloured
concrete that is
fade resistant
and durable

Ready Colour Range

Allied concrete has 16 standard colours in the Ready Colour range and over 80 other colours available. Our colours are created right here in New Zealand, they are fade resistant and of the highest quality.

 Mist	 Leaf	 Amber	 Ash
 Oyster	 Olive	 Cinnamon	 Smoke
 Willow	 Sage	 Tan	 Pepper
 Cocoa	 Hazel	 Bay	 Battleship

For a superior finish we recommend using Ready Sealer. The Sealers displayed on samples left to right are:

Water based Sealer	Natural Unsealed	Solvent based Sealer
--------------------	------------------	----------------------

These colours should be used as a guideline only. Natural variation in colour, texture and finishing may have an effect on the final colour.

Colour Variations

Concrete is a natural material meaning that every floor is unique.

The final colour and surface appearance can be influenced by many factors, these include but are not limited to:

- The raw material colour
- Weather conditions on the day and the local environment
- The way the concrete is placed, cured and finished
- The choice of sealer (as shown on our samples)

Our team is happy to discuss these factors, so please contact us and we can help you achieve your desired finish or visit www.alliedconcrete.co.nz for more information.

Samples

The colours shown here are only a representation of our Ready Colour range so it is unlikely they will be an perfect match to the final colour in the concrete.

You should always pick your colour from real concrete samples, we recommend viewing our products personally before ordering.

Contact your local branch to arrange a time to view samples of our Ready Colour range. Many of our locations have display areas with larger samples on the ground that you can view.

The logo for Allied Concrete features the word "Allied" in a bold, white, sans-serif font, with a stylized orange and white graphic element to its left. Below "Allied" is the word "Concrete" in a larger, white, sans-serif font.
